FIX 1: I know that you probably already have checked the card's slide switch, but I just want to first present this for others with the same problem who may not be aware of this switch. Other options besides the slide switch are presented further in this article. Please check to make sure that you didn't accidentally place the tiny locking slide switch on the side of your SD card in the ...

Film speed is the measure of a photographic film's sensitivity to light, determined by sensitometry and measured on various numerical scales, the most recent being the ISO system. A closely related ISO system is used to describe the relationship between exposure and output image lightness in digital cameras.. Relatively insensitive film, with a correspondingly lower speed index, requires more ...
