The Mercatus Center at George Mason University is an American non-profit free-market-oriented research, education, and outreach think tank directed by Tyler Cowen. It works with policy experts, lobbyists, and government officials to connect academic learning and real-world practice. Taking its name from the Latin word for "market", the center advocates free-market approaches to public policy.

Anne is working at her desk. While she is directly aware only of her immediate situation — her being seated in front of her computer, the music playing in the background, the sound of her husband's voice on the phone in the next room, and so on — she is quite certain that this situation is only part of a series of increasingly more inclusive, albeit less immediate, situations: the ...

Possible Worlds (Stanford Encyclopedia of Philosophy)

Federalism is the theory or advocacy of federal principles for dividing powers between member units and common institutions. Unlike in a unitary state, sovereignty in federal political orders is non-centralized, often constitutionally, between at least two levels so that units at each level have final authority and can be self governing in some issue area.
