Matrilineality is the tracing of kinship through the female line. It may also correlate with a social system in which each person is identified with their matriline - their mother's lineage - and which can involve the inheritance of property and/or titles. A matriline is a line of descent from a female ancestor to a descendant (of either sex) in which the individuals in all intervening ...

Matrilineality - Wikipedia

I can see people asking all the time whether multiple inheritance should be included into the next version of C# or Java. C++ folks, who are fortunate enough to have this ability, say that this is like giving someone a rope to eventually hang themselves.

oop - What is the exact problem with multiple inheritance ...

Mendelian traits are physical characteristics passed down from parents based on dominant and recessive alleles. This lesson will go into more detail about what Mendelian and non-Mendelian traits ...

Mendelian & Non-Mendelian Traits in Humans: Definition & List

The DNA that a person inherits from their parents determines many personal characteristics and traits, like whether someone is right- or left-handed or the color of their eyes. In this science project, you will examine fingerprints from siblings versus pairs of unrelated individuals to figure out if general fingerprint patterns are genetic or random. . Have you ever looked at two girls and ...

Are Fingerprint Patterns Inherited? | Science Project
